Dear members of the Arizona Corporation Commission,
Right now, in the middle of summer and the middle of the slow season for many small business owners in Arizona, I am asking you to vote no on the APS rate case. As the heat rises, so does my electric bill. APS wants to further increase my bill by increasing the fixed rate.

I ask, what has APS done to increase their efficiency before charging their customers more? Small business such as mine must be very efficiency to turn a profit. This increase is unjustified and harmful.

Arizona small businesses are looking for the support of the commission on this matter. Please do not disappoint us.

Thank you,
